

Service Center for Workplace and Parental Leave

The State of Brandenburg wants to become the most child-friendly and family-friendly federal State of Germany. In this regard, the Service Center Workplace and Parental Leave was initiated in July 2008 as one of the focal family advice centres in the federate state of Brandenburg . The consulting service realizes with a selection of services to bring the interests of employees, for example a family-related break, with business interests in balance. The Service Center advises both sides, employees and employers, on issues such as maternity rights, parental leave and return to work.
